Friday's Shuttle launch delayed to inspect cables

Space Shuttle Program officials decided Monday to return Atlantis to the Vehicle Assembly building at the Kennedy Space Center to conduct further inspection of the Solid Rocket Booster cables. Launch, set for Friday, is delayed until no earlier than Feb. 6. That will have some impact on the scheduled March 1 launch of Discovery on the STS-102 mission to the Space Station.

Marshall welcomes 2000 Astronaut Candidate Class

Volunteers needed for job shadowing days in February. Call 544-2319

Science, Technology Policy rep visits Marshall Wednesday

Victor Villhard, assistant director for Space and Aeronautics of the Office of Science and Technology Policy, and senior policy analysts Brett Alexander and Chris Crumbly, will visit Marshall Wednesday. The group will receive several overviews and tour the Propulsion Module, Propulsion Research Center, Productivity Enhancement Center and the X-ray Calibration Facility.
